YORK[®]

[mc]² AIR CONDITIONER

Introducing the [MC]², York's newest addition to the Latitude Series of air conditioners, furnaces and heat pumps. It's as welcoming outside as it is inside, with unsurpassed cooling efficiency for such an unassuming size. First, it spoils you with quiet operation and minimal outdoor presence, and then it comes through with the utmost in environmental regard. It's no surprise York has set a new standard while once again proving that good things do come in small packages.

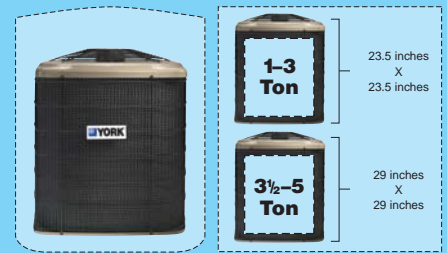

Get comfortable with technology.

Introducing York's newest 13 SEER air conditioner—the [MC]². It's called the [MC]² because it employs a revolutionary new (MicroChannel) coil design, which allows it to be one of the most compact units available providing 13 SEER, the federal government's new minimum standard for efficiency.

- Durable construction, following York heritage
- Surprisingly and pleasantly quiet
- Available in 1–5 ton sizes
- Uses R22 refrigerant, and less of it
- Nylon mesh and tight-knit coil guard for added protection
- Dependable performance in the smallest 13 SEER unit available

Less can be so much more.

The [MC]² has one of the smallest footprints of any unit with a 13 SEER rating. And when replacing older units, you can save time and money, since you can reuse your existing pad. Less space required outside, more cooling capacity inside. Trust the [MC]² to keep operational costs and temperatures down.

*The MicroChannel
Air Conditioner. Compact. Robust.
Efficient beyond its size.
It fits into places other 13 SEER air
conditioners can't.*

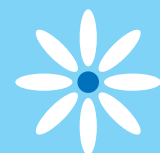

It's the little things that can make you feel so good.

Before now, there's never been a better upgrade to an old air conditioner where space was an issue. As the government has increased the minimum efficiency standard, most manufacturers have been forced to build bigger, bulkier units. And locating them in an existing air conditioner's space—or finding an entirely new location—may present problems or lead to additional costs.

The [MC]² is as small as older units that weren't nearly as powerful, efficient or comforting. That means you can put this 13 SEER marvel in your old unit's space. So, while you won't notice your new air conditioner any more from the outside, you will notice a world of difference when you go inside.

With York, you can breathe a little easier.

At York, we think comfort goes beyond simple temperature control. That's why we offer so many new ways to improve your home's air quality. From ventilation systems to electronic air cleaners and more, York's Total Comfort System™ approach means total peace of mind. You never have to worry about unclean air, hidden mold or energy costs again. And your family can relax and enjoy a genuinely clean, clear, comfortable home. Isn't that a breath of fresh air? Ask your York Dealer for details.

How to stay comfortable for years to come.

York and your York Dealer are proud to offer the YorkCare™ Comfort Plan. It's designed to maintain your system as well as your peace of mind. With up to 10 years of total coverage available, you can ensure your unit is effective and efficient for years to come. What's

more, your York Dealer offers maintenance agreements that provide upkeep while maximizing the warranty provisions. Ask about the YorkCare Comfort Plan. A little extra coverage is always a comforting idea.

Long story short: the history of York design.

You've probably enjoyed York engineering for years without even knowing it. We have, after all, designed and implemented heating

and cooling systems in some of the world's most famous structures, including the U.S. Capitol building, India's Taj Mahal, the Sydney Opera House, the entire U.S. Navy nuclear submarine fleet, and even venues such as your local mall and corner bank.

■ There's a reason people trust us with the big jobs. We've been doing this a long time. Over 130

years, in fact. In that time, we developed the first successful room air conditioner and cooled the world's first theater, hotel and office building.

We're constantly leading the industry in our design and our technology. And our commitment has earned our products

the Good Housekeeping Seal of Approval. No matter what the scale, chances are we've developed an efficient, durable and effective solution for it.

■ Which is all a way of saying this: You can depend on York to give you the choices you're looking for and the

designs that will keep you comfortable year-round, year after year.

■ Want to know more? Contact your York Dealer. They have 130 years of innovation to tell you about.
